SUMMARY

Highly motivated and detail-oriented technology graduate, passionate about solving real-world problems through innovation and teamwork.

SKILLS

- **Languages Known:** C, C++, Java, Python and SQL.
- **Web Technologies:** HTML, CSS, AWS services for web hosting.
- **Proficiencies:** Object-Oriented Programming (OOP) and Software Development Life Cycle.
- **Good Communication Skill:** Strong public speaking and presentation abilities.

PROJECTS

Food Court Web Application

[Github Link](#)

- Tech Stack: Django, HTML, CSS, JavaScript, Bootstrap
- Built a responsive online food ordering system with menu display, add-to-cart functionality, and feedback features. Deployed on AWS EC2 with animations and user-friendly UI.

Smart Visitor and Threat Detection System using AWS

[Github Link](#)

- Integrated AWS Rekognition for face analysis and Lambda + SNS for triggering alerts. If a suspicious or unrecognized face is detected, the system immediately sends threat alerts via email or SMS to the security team.
- Designed a secure, scalable cloud architecture with S3, DynamoDB, and CloudWatch for data storage, monitoring, and performance.

INTERNSHIPS

AWS Cloud Intern

[Link](#)

- Completed a hands-on internship focused on frontend development using HTML and CSS.
- Strengthened knowledge of core web technologies and improved skills in creating effective digital designs.
